ACCOUNTING

accounting simplified 

September 8, 2011

Dear Valued Client,

The age old adage “time flies when you’re having fun” couldn’t be more apt for us at Palladium. The past few months have been quite overwhelming as we move well into the second half of the year, and I sometimes wonder where the time has gone.

The 2012 development is now complete with yet more features added in the form of Upsell Items, Delivery Routes with Delivery consolidations and printed trip sheets (or manifests). In addition a document Copy Function allows you to create a Purchase Order from a Sales Order in just a few clicks with full traceability of the order from “Cradle to Grave”. A full Document Status Settings and Credit Note Reason Codes just complements these great features. In addition to this we have full document line item discounts driven by a Customer Discount Pricing Matrix. Please note that these features relate to the Enterprise 2012 version only, with the Business and Individual releases to follow soon.

What is more important to note is that some of these features are the preserve of your traditional ERP product costing up to 50 times the cost of Palladium, and just accentuates our endeavour of offering ERP (or Big Business) Functionality at SME (Small Business) pricing.

We hosted a Pre-Release of the 2012 version to our resellers on Wednesday 10th August at the Microsoft South Africa Head Office in Johannesburg. This was a very successful event with over 90 resellers attending from all over the country including some delegates from other African countries. It is said that you can “judge a person by the (software) company they keep” and we believe that this could not be more descriptive of our relationship with Microsoft and we of course thank them for their kind hospitality in giving us their venue.

So as the recession bites it’s time to change the rules of the game and be reminded of the words of Woody Allen, “Seventy percent of success in life is showing up”.

We thank you for your support and look forward to offering you more business enhancing functionality to stay ahead of your competitors.

Sincerely

Stephen Corrigan - MD

2012 Edition

We are pleased to announce that the 2012 Enterprise Edition has been released. If you are using the Individual or Business versions you can simply access the “Palladium Help” Section in your program and Select the relevant Palladium Product Demonstration Download. Regardless of what Palladium Product or version you are running though, you can still download the 2012 Enterprise Edition for evaluation purposes by simply clicking [here](#). Note that you only have to install the Program Component and **not** the SQL or the Prerequisites as they have already been installed.

Click [here](#) to see “What’s New in Palladium Enterprise 2012” or click [here](#) to get a detailed list of the Palladium Enterprise Features. Who knows, you may find out things you weren’t aware Palladium could do (like define a default printer per user per processing document and even a unique document design per user or group of uses in a different branch or department!).

For further information please contact your Palladium Business Partner or contact our Sales Department on sales@palladium.co.za or call us on +27 (0)11 367-0656 and [make the move to advanced business processing](#).

Palladium 2012 Webinars

We will be hosting a number of *free* webinars on the new features and benefits of the 2012 product range. Should you wish to book your seat on these webinars, please email training@palladium.co.za. These webinars will last approximately 30 min and will ensure that you have a good understanding of the new features, ensuring that you get a maximum return on your investment. We will post the dates and times on our website and Helpdesk at a later stage.

Palladium Receives The All Clear from The Icelandic Tax Authority

We are pleased to announce that Palladium has recently been accredited by the Icelandic Tax Authority paving the way for our expansion in the Nordics. Congratulations to Gunnar and his team in working hard for this endorsement.

Tips & Tricks

Please find Support articles to assist you in making the most out of your Palladium Accounting Solution.
