

# Stay ahead of your competitors with Palladium Accounting software!

Palladium Accounting boasts the most cutting-edge software innovation in the market, is developed using the latest in Microsoft Technology and is so advanced that we offer greater stability than ERP products yet at a fraction of the price. On top of this, the software's intuitive ease-of-use, extensive functionality and a rich set of features with minimal support requirements make Palladium Accounting the most progressive accounting software available. We believe that SME businesses should no longer accept instability and data corruption as part of the deal with accounting software.

We offer an outright purchase or contract-free monthly rental option.

Is your accounting software Microsoft certified? If not, contact us for a quote. Palladium is built on the latest Microsoft Technology.

The new Palladium 2012 release is feature rich and supports our on-going commitment to provide our clients with practical, business enhancing features, that will assist them to stay ahead of their competitors.

- Automated Customer Selling Price Update Function
- BI Style Enquiry Functionality With Drag and Drop Groupings
- Copy Sales Order to Purchase Order
- Credit Note Authorisations and Reason Codes
- Extended Inventory Supplier Information With Warranties and Lead Times
- Process Freehand Quotes and Create Customer and Supplier Documents on the Fly

\* Some Features may be exclusive to certain editions of Palladium Accounting
